Executive Summary

On the night of **12 June 2021** — a **dark night** — Mr **Boslal K** (58, Cherthala) was involved in a serious road traffic accident **near Cherthala Railway Station**, on the corridor **after Ottappunna Junction towards Cherthala Railway Station**. CCTV reconstruction points to **19:33 (7:33 PM)**. *Lakeshore discharge summary records the alleged RTA as “~8:20 PM”*. He suffered a **Grade 3 Diffuse Axonal Injury**, multiple skull and rib fractures, and right brachial plexus nerve damage.

He was taken first to **Cherthala Taluk Hospital**, then referred to **VPS Lakeshore Hospital, Kochi** — **months of critical hospital care** in Neuro ICU (ventilator, surgery, tracheostomy). **Readmitted the same day** he was first discharged (**29 June 2021**) with fever and decreased response; second stay until **3 July 2021**. MRI on **20 June 2021** confirms Grade 3 DAI and brachial plexus injury.

His son **Vishnual N.B.** was **sleeping at home** and was **informed by friends around 8:20 PM (~20:20)** — not at the accident time. Police did **not register an FIR**. The **only help from police** was collecting **CCTV visuals from Kumbalam Toll** through a police officer. Vishnual pursued toll records (TCMS), **Camera 01 footage at 19:23 (7:23 PM)**, and vehicle tracing — identifying **KL 68 A 7548**. He **holds all details and documents** but states he has **serious doubts about everything that happened that day** — the times, the accounts, and the official response. Police later said the vehicle was allegedly not involved.

Why Could Not Attend Court?

കോടതിയിൽ എന്തുകൊണ്ട് ഹാജരാകാൻ കഴിഞ്ഞില്ല?

Medical incapacity — not refusal. Lakeshore records (first admission, same-day re-admission, MRI) plus the 2025 letter prove this.

Medical incapacity — വിസമ്മതമല്ല. Lakeshore records (first stay, re-admission, MRI) + 2025 letter ഇത് തെളിയിക്കുന്നു.

2021 — IMMEDIATELY AFTER ACCIDENT

Physically Impossible to Appear

- Hospitalized **12–29 June 2021** at Lakeshore Neuro ICU, then **re-admitted the same day (29/06/2021)** until **03/07/2021** — months of critical care from the accident
- MRI **20/06/2021** confirms **Grade 3 DAI** and brachial plexus injury (Hospital ID 500197)
- GCS 7 on admission — deep unconsciousness / near coma
- On ventilator; underwent brain surgery and tracheostomy
- Grade 3 Diffuse Axonal Injury — one of the most severe brain injuries
- No court can legally expect personal appearance in this condition

2021 — അപകടത്തിന് ഉടൻ

ശാരീരികമായി ഹാജരാകാൻ കഴിയില്ല

- 12–29 ജൂൺ Lakeshore Neuro ICU-യിൽ
- GCS 7 — deep unconsciousness
- ventilator, brain surgery, tracheostomy
- Grade 3 DAI — extremely severe brain injury
- ഈ അവസ്ഥയിൽ court appearance expect ചെയ്യാൻ കഴിയില്ല

Still Medically Unfit

- Encephalopathy (brain dysfunction) documented Aug 2025
- Chronic liver disease with elevated ammonia
- CCF_003449.pdf submitted each time court demanded appearance
- **Gap:** Referral letter does not explicitly state “unfit for court” — a formal certificate is recommended

ഇപ്പോഴും medically unfit

- 2025-ൽ encephalopathy documented
- chronic liver disease, elevated ammonia
- CCF_003449.pdf court-ന് submit ചെയ്തിരുന്നു
- **കുറവ്:** “court-ൽ ഹാജരാകാൻ കഴിയില്ല” എന്ന explicit line ഇല്ല — formal certificate വേണം

FIELD	DETAIL
Registration	KL 68 A 7548 (Kottayam district, Kerala)
Make	Eicher
Colour	Red cab/bumper · Yellow hood
Marking	“Vadakkan” on windshield
Class	LCV / Mini Bus · 2 axles
Toll time	12/06/2021 18:58:38 – 18:59:05
Police response	Allegedly “not involved” — no written report shared with family

Revised timeline: Accident at 19:33. Camera 01 CCTV at 19:22–19:23 is only ~10 minutes before the crash. Toll record at 18:58 is ~35 minutes before. Police had far less excuse to reject the vehicle link — yet no proper inquiry was done.

സമയം: അപകടം 19:33. Camera 01 (19:22) — ~10 മിനിറ്റ് മുമ്പ്. ടോൾ 18:58 — ~35 മിനിറ്റ് മുമ്പ്. vehicle link reject ചെയ്യാൻ police-ന് weak ground — inquiry ഇല്ല.

Why Was No FIR Registered?

FIR എന്തുകൊണ്ട് രജിസ്റ്റർ ചെയ്തില്ല?

LIKELY REASONS

- **No police help** — family says authorities did not investigate CCTV, toll records, or vehicle tracing
- **Vehicle not identified at scene** — only GD/accident register entry, not full FIR
- **“Insufficient evidence”** — stated while son later found toll + CCTV proof independently
- **KL68A7548 rejected later** — after Vishnulal submitted evidence police had not obtained themselves
- **Treated as MV Act accident** instead of criminal hit-and-run (IPC/BNS)
- **Jurisdiction confusion** — highway/toll corridor vs local police station

സാധ്യമായ കാരണങ്ങൾ

- **പോലീസ് സഹായം ഇല്ല** — CCTV, toll, vehicle tracing police ചെയ്തില്ല
- **scene-ൽ vehicle identify ചെയ്യാനായില്ല** — GD entry മാത്രം
- **“തെളിവില്ല”** — പക്ഷേ മകൻ toll + CCTV proof കണ്ടെത്തി
- **KL68A7548 reject** — വിഷ്ണുലാൽ submit ചെയ്ത evidence police സ്വയം എടുത്തില്ല
- **MV Act accident** ആയി handle — criminal hit-and-run FIR ഇല്ല
- **jurisdiction confusion** — highway vs local PS

What the law says: Hit-and-run causing hurt is a cognizable offence. Under Lalita Kumari (2014), police cannot refuse FIR if facts disclose a cognizable offence. Remedies: RTI · Section 154(3) CrPC / 173(3) BNSS · Section 156(3) Magistrate direction.

നിയമം: hurt ഉള്ള hit-and-run cognizable offence ആണ്. Lalita Kumari (2014) — FIR refuse ചെയ്യാൻ കഴിയില്ല. RTI · 154(3) · 156(3) remedies.

Family Doubts · Why Nothing Adds Up

കുടുംബത്തിന്റെ സംശയങ്ങൾ · എന്തുകൊണ്ട് convincing അല്ല

Vishnula N.B. states he has serious doubts about everything that happened on 12 June 2021 — the timeline, who said what, why friends and the hospital record both show ~8:20 PM while CCTV points to 19:33, the police response, and the closure of the case without convincing answers.

വിഷ്ണുലാൽ എൻ.ബി.-ക്ക് 2021 ജൂൺ 12-ന് സംഭവിച്ചതിനെപ്പറ്റി എല്ലാം സംശയം — timeline, സുഹൃത്തുക്കളും hospital record-um ~8:20 PM, CCTV 19:33, police, court — convincing answer ഒന്നും ലഭിച്ചില്ല.

DOUBTS RAISED

- **Doubt about the whole day:** Vishnual N.B. does not trust that the full truth of **12 June 2021** was ever established — he has serious doubts about **everything that happened that day**, not only one detail
- **Three clocks, no alignment:** CCTV corridor reconstruction → **19:33**; friends informed him → **~8:20 PM**; Lakeshore hospital record → alleged RTA **~8:20 PM**. Why do friends and the hospital match, but CCTV does not?
- **~8:20 PM from friends:** Vishnual was asleep at home; friends informed him around **8:20 PM**. Was that the accident time they reported, the time they heard, or the time they called? No clear answer was ever given
- **Dark night, 19:33:** Limited visibility — yet police claimed “insufficient evidence” while not collecting CCTV or toll data themselves
- **~10 minutes:** Camera 01 footage (19:23) is only minutes before the CCTV-derived accident time (19:33) — why was this not treated as a strong lead?
- **Police inaction:** No FIR — only Kumbalam Toll CCTV help via one officer; son built the rest of the file
- **KL68A7548 rejected:** After son submitted toll + CCTV proof, police said “not involved” with no written report shown to family
- **Court demands:** Father medically unfit (ICU 2021, encephalopathy 2025) yet appearances were still demanded
- **Overall:** Too many contradictions, too little accountability — the family does not trust that the truth was ever sought

സംശയങ്ങൾ

- **ആ ദിവസം മുഴുവൻ സംശയം:** 2021 ജൂൺ 12 സംഭവിച്ച എല്ലാം സംശയം — truth establish ചെയ്തില്ല
- **മൂന്ന് സമയങ്ങൾ:** CCTV **19:33** · സുഹൃത്തുക്കൾ **~8:20 PM** · Lakeshore **~8:20 PM** — എന്തുകൊണ്ട് match/agreement ഇല്ല?
- **~8:20 PM — friends:** ഉറങ്ങിക്കിടക്കുമ്പോൾ friends informed — accident time ആണോ, call time ആണോ, clear answer ഇല്ല
- **ഇരുട്ട് രാത്രി, 19:33:** police CCTV/toll സ്വയം എടുത്തില്ല
- **~10 മിനിറ്റ്:** Camera 01 (19:23) — strong lead treat ചെയ്തില്ല
- **Police inaction:** FIR ഇല്ല — കുറേയും ടോൾ CCTV help മാത്രം
- **KL68A7548 reject:** written report family-ക്ക് കാണിച്ചില്ല
- **Court:** medically unfit — appearance demand
- **മൊത്തത്തിൽ:** contradictions ധാരാളം — truth seek ചെയ്തില്ലെന്ന് doubt
